ATTENDEE FEEDBACK

Attendees that found our webinars more helpful than others

Attendees that are doing something different in their organization as a result of these webinars

Attendees that found these webinars to be useful

What our attendees had to say...

"Learning from those with firsthand knowledge and creating the dialogue was important"

"Helped us develop a plan"

"Good platform for rapid collaboration and information sharing"

"Great information...Very well coordinated...Speakers were extremely relevant and well spoken"

"Incorporate recommendations and lessons learned into our planning...Many of our decisions have been based on this information"

"Excellent resource...I enjoyed their no nonsense approach...I learned a great deal from listening in"

"I calmed down and felt this was a manageable virus"

"Real world just in time subject matter discussion directly applicable to the EMS industry"

THANK YOU PARTNERS!

We couldn't have done it without you.

These webinars would not have been possible without the support of our participants, guest speakers, moderators (Michael McKeage, Ken Luciak and Randy Mellow), and partners. We offer our most sincere thank you to [FirstWatch](#), the International Association of EMS Chiefs ([IAEMSC](#)), the National Emergency Medical Services Association ([NEMSMA](#)), and the International Academies of Emergency Dispatch ([IAED](#)), as we continue a tradition of information and best practices sharing that started with SARS, was used for H1N1, and now Ebola.

Missed any of our webinars? No problem!
