About Us

Eastern Health is the largest, integrated health authority in Newfoundland and Labrador employing approximately 13,000 dedicated employees and serving a population of more than 300,000 people. The authority offers the full continuum of health and community services including public health, long-term care, community services, hospital care and unique provincial programs and services. At Eastern Health we pride ourselves on providing the highest quality care and service possible to the people in our communities, in our region, and in the province. To do that, we employ qualified, competent and caring individuals who are dedicated to their professions and to our vision of Healthy People, Healthy Communities.

Job Summary

The Advanced Care Paramedic performs independent advanced medical care and intervention to patients at pre-hospital scene settings. This includes operating ambulances in responding to emergencies and routine calls; conducting physical examinations; performing comprehensive assessments and tests; interpreting a variety of tests and procedures; initiating a variety of advanced interventions; and performing other related duties as required. Work is performed with considerable independence and is reviewed through observation, examination of records and reports and the presence or absence of valid complaints. Advanced Care Paramedics report directly to the Operations Supervisors.

Job Demands

By applying for this job, you acknowledge an understanding that regular requirements and demands of this job include (but are not limited to):

Regularly moves, lifts, or carries patients or equipment ranging from 10 to 50 pounds and occasionally in excess of 100 lbs. in challenging environments and which is not always conducive to proper ergonomics. Position is rated heavy to very heavy.

Constantly bending, stretching, kneeling or pushing/pulling of stretchers (which require up to 35 lbs. of push/pull force or greater per employee as the terrain and weather conditions; sometimes in small and cramped spaces.

Visual concentration or alertness is required and there is frequent time pressures in the pre-hospital emergency setting.

Lack of control over work pace occurs due to unpredictable situations and/or call volume.
