MANGAR

SAFE PATIENT LIFTING DEVICES

Unbeatable lifting solution, providing a stable and secure lift, while protecting the care giver from injury

PRIVATE EVENT

Please join our 30 minute webinar

Mangar lifting cushions are proven to reduce avoidable call outs, hospital admissions and WMSD injuries.

The chance of injury to EMS worker reduces by up to 41% when a lifting device is readily available.

The Elk or the Eagle - both designed for EHS use.
Which device best fits your organization?
