

Small Patients, High Stakes— Pediatric HALO Webinar

Join ZOLL® for a live webinar on Wednesday, December 17, 2025. Pediatric emergencies are among the most stressful and cognitively demanding calls EMS providers face.

This session explores how ZOLL's integrated technologies — including Zenix®, RealCPR Help®, RescueNet® DeviceDashboard, emsCharts® NOW, and RescueNet® CaseReview — help reduce mental workload, support confident pediatric care, and facilitate structured post-call review.

SPECIAL GUEST PRESENTERS

Dr. Peter Antevy

Board certified in Pediatrics,
Emergency Medicine, and EMS
Chief Medical Officer: Handtevy

Patrick Bavaro

Serves as Chief Growth Officer: Handtevy

Eric Bauer, FP-C, CCP-C

Chief Executive Officer: FlightBridgeED

Supporting EMS providers during
high-acuity, low-occurrence (HALO)
pediatric calls

Event Highlights

- Understanding the cognitive and emotional challenges of pediatric HALO calls
- Leveraging ZOLL's pediatric features to support safe interventions and real-time guidance
- Reviewing cases and fostering psychological safety through structured feedback
- Building simulation-based training to enhance confidence and resilience
- Increasing HALO knowledge through an expert panel Q&A.
