

To Advance and Align Paramedic Leadership in Canada

Nicholas Thain EMT-P, MAL(H)
Executive Director, EMS Clinical Operations
Calgary Zone
Alberta Health Services

"I have been a member of the Paramedic Chiefs of Canada for over eight years. The ability to connect with other Paramedic leaders across the country has provided me with the benefit of mentorship and leadership development. To be a part of a national paramedic voice is imperative to the success of Paramedic Services coast to coast. Having access to leading edge research, and the network of the Pan-Canadian organizations across the globe provides invaluable input towards enhancing and improving our system in our local communities."

To Advance and Align Paramedic Leadership in Canada

Why become a PCC member?

Paramedicine in Canada is undergoing perhaps the most significant change in the history of the profession.

This change includes:

- the creation and evolution of community paramedic programs
- the development of self-regulating professional colleges
- a rapid advancement in the quality, depth, and breadth of education and research, including a move to baccalaureate degrees
- a focus on supporting the mental health and resilience of our staff
- consistent challenges with off-load delay
- significant operational pressures associated with increasing call volumes
- demands for new models of mobile integrated health care
- the impacts of the opioid overdose crisis

This significant change requires leaders who are innovative, creative, bold, and connected to a network of peers across the country – this is what the Paramedic Chiefs of Canada provides.

GROWTH

PCC provides value-added member services to develop and promote the emergency medical management profession in Canada

REPRESENTATION

PCC provides industry representation to national and international groups

LEADERSHIP

PCC supports and promotes Paramedic leadership development

ANNUAL LEADERSHIP SUMMIT

The PCC leadership summit sets the stage for the future direction of Paramedic services in Canada. In addition to attending the leadership summit sessions, listening to a dynamic keynote and plenary speakers, you will have the opportunity to meet with sector partners, network with colleagues, and engage in dialogue with subject matter experts from around the globe.

Membership Benefits

- National Discussion Groups that allow PCC members to share information, best practices, and topics of current interest
- Advocacy for issues facing Paramedic Services across the country and influence policy makers
- National Major Event Alert Group to provide the necessary infrastructure that quickly brings together members to share information when a major event occurs that would affect, stress, or compromise the integrity of Paramedic Services
- Leadership and management development webinars
- Access to research that leaders can implement within Paramedic Services
- Online archive of Paramedic literature, case studies, policies and more
- Website – Access to our members only section containing information on the activities of our association, position statements, research studies, networking opportunities and upcoming events
- Annual Leadership Summit – Special member rates to attend the annual Leadership Summit, as well as access to speaker information and presentations posted on the Leadership Summit website
- Early Notice – about upcoming events, such as professional development workshops and special events
- Subscription to our LISTSERV – a platform for our members to immediately share information, pose questions to other Paramedic leaders, and communicate on a timely basis with PCC members across the country
