

The Paramedic Chiefs of Canada (PCC) is developing a Health Human Resources (HHR) Portal that will be accessible to both members and non-members. The purpose of the HHR Portal is to support information sharing among Emergency Medical Services (EMS) organizations across Canada in order to address national HHR challenges.

The Portal will enable EMS services to upload and share materials, which may include, but are not limited to:

- Job descriptions
- Medical protocols and clinical guidelines
- Recruitment and retention materials
- Deployment and workforce planning documents

Health Human Resources challenges affect all ambulance services in Canada. By submitting materials to the HHR Portal, the contributing ambulance service attests that the information provided is current, accurate, and has received all necessary internal approvals for sharing.

Materials uploaded to the Portal may be reviewed by EMS leadership from other services and may be adapted or applied at their discretion to meet local operational, clinical, or organizational requirements. The Paramedic Chiefs of Canada assumes no responsibility for the implementation or use of shared materials by receiving organizations.

Legal Disclaimer

The HHR Portal is provided as an information-sharing resource only. The Paramedic Chiefs of Canada makes no representations or warranties, express or implied, regarding the accuracy, completeness, suitability, or applicability of any materials shared through the Portal. PCC does not endorse, approve, or validate any content uploaded by contributing organizations.

Each EMS organization is solely responsible for ensuring that any materials adopted or implemented from the Portal comply with applicable legislation, regulatory requirements, professional standards, collective agreements, and local governance approvals. PCC shall not be liable for any direct, indirect, incidental, or consequential damages arising from the use, reliance upon, or implementation of materials obtained through the HHR Portal.
